Square door panels on all base cabinets.

Portsmouth Door and Drawer Front Construction

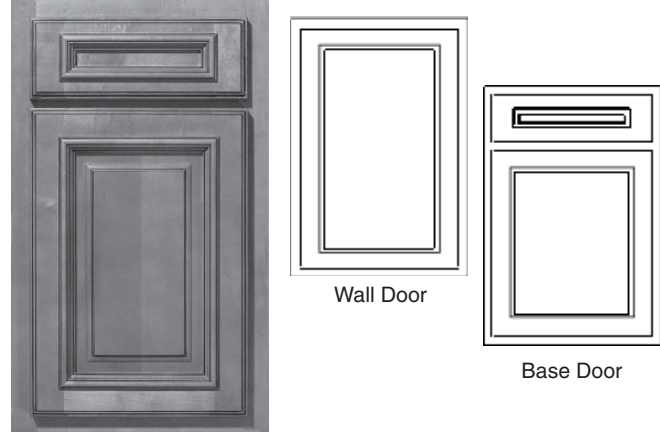

- Full overlay styling (1-5/16" overlay).
- 3/4" thick hardwood frame with 3/8" thick solid reverse raised panel. Rope molding is placed along the inside edge of the framing.
- Drawer fronts are 5-piece.
- Rope molding is placed along the inside edge of the framing.
- Door is secured to the front frame with Blum® 6-way adjustable cup hinges.

- As an option, a slab drawer front may be ordered in place of the 5-piece drawer front at no charge. (OPT#527)

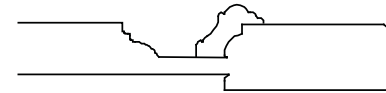

Note: In order to provide the most stable door possible, all Portsmouth Series doors taller than 30" will be made with two floating wood panels using the profile shown for that style. Single panel doors may be ordered as an option (OPT#620).

AMERICAN SERIES ROCKFORD (RO)

Wall Door

Base Door

Shaker Door Edge Profile

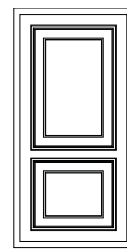

Designer Door Edge Profile
Option #640

Wood Species	ABBR	Door Style*
Cherry	ROC	S
Maple	ROM	S
Oak	ROO	S

*Door style abbreviation: (S) Square
Square door panels on all base cabinets.

Rockford Door and Drawer Front Construction

- Traditional overlay styling (5/16" overlay).
- 3/4" thick hardwood door frame with 5/8" thick raised center panel. The panel profile features a large flat area around the perimeter. This flat area allows applied molding to be added to the door in a picture framing effect.
- 5-piece 3/4" thick select hardwood drawer front with a flat, veneer center panel and raised applied molding.
- Door is secured to the front frame with Blum® 6-way adjustable cup hinges.
- As an option, #3 Youngdale® knife hinges may be ordered on all Rockford Series door styles. (OPT#694)

Note: In order to provide the most stable door possible, all Rockford Series doors taller than 30" will be made with two floating wood panels using the profile shown for that style. Single panel doors may be ordered as an option (OPT#620).
